## TE STYLE SHEET

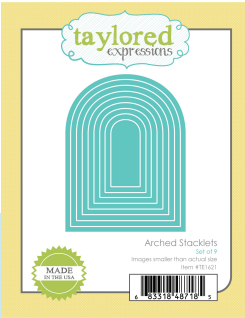

## SNOW GLOBE BUILDER

Arched Stacklets (TE1621) - \$29

Taylor<sup>ed</sup> Expressions' Snow Globe builder is designed to create beautiful domed snowglobes when paired with our **Arched Stacklets die**.  
Make three different sized snowglobes, filled with soft snowy hills, using the 3rd, 4th, and 5th frames created by the Stacklets set.

Use the Snow Globe Builder to create soft hills of snow and assemble the Tiny Town pieces to fill your snow globes with adorable scenes!

### SHAKE SHAKE SHAKE

After assembling your snow globe scene, make your snowglobe a shaker card by cutting the arches out of acetate. Glue the corresponding acetate arch to your arched frame.

Place Foam Sticky Strips all the way around the back of this framed window.

Pile the shaker fill of your choice onto your scene, and stick your window frame over the whole composition.

Pop up your snowglobe base at the bottom and **VOILÀ!**
